

Announcement

Congratulations to the EdUHK Class of 2020! We are proud of your accomplishments as well as perseverance and resilience, enabling you to complete your studies in a very challenging situation under the pandemic.

We understand the importance of the graduation ceremony, which marks the completion of this stage of your academic journey. However, we are all aware that the development of the pandemic remains uncertain and, over the past few months, the University has explored different options for holding the ceremony. At the same time, we have taken very seriously the fact that we must not let down our guard in terms of disease prevention and control. The health and safety of you, your family and our community remain our priority.

In taking all factors into consideration, we have decided to hold the ceremony online. In the coming weeks, we will share more information about the ceremony and other updates on this website or by email, including online attendance at the ceremony and photo-taking sessions with the President. Special arrangements will also be made for you to have your academic dress for a longer period.

As always, we appreciate your kind understanding and support. We wish you all the best in future endeavours and please stay healthy. We look forward to celebrating your achievement.
